

VT Cape Wrath Focus Fund

31 August 2020

Summary Investment Objective

The investment objective of the Fund is to generate capital growth over the long term by typically investing at least 70% in a concentrated portfolio of UK listed equities. The Fund follows a value philosophy, looking for situations in which investors have over-reacted to events and valuations no longer reflect company fundamentals. The best opportunities often are found after a period of disappointment has created emotional reasons not to invest. Every investment requires a clear catalyst, which impacts on earnings, or the multiple the market applies to those earnings. The Fund typically invests in 10 – 20 holdings on an unconstrained, absolute return basis. The sector weightings result from stock-selection, and are often counter-cyclical.
